

THIRD DIGITRANS MEETING

The third DIGITRANS project meeting took place in Croatia from 16-19 of April 2018. The project partners have the opportunity to meet and discuss the last project issues and arrangements before to start hosting the DIGITAL TRANSFORMATION trainings for SMEs in the Danube region.

The DIGITRANS method and e-learning platform materials were the focus of the Train-the-trainer workshop, where project partners shared experiences and reflections. Further questions for sustainable development of the project outcomes were the focus of the last day as a visit of the Technology Park, Varazdin.

The newly established “Digital Danube Group” was officially presented during the event in Esplanade hotel, Zagreb, which was organized due to the visit from the German Federal State of Baden-Württemberg headed by Prime Minister Winfried Kretschmann, who personally presented the Certification of establishment to the representatives of the working group. Digital Danube working group consists of partner’s representatives from 7 European countries (Germany, Austria, Slovenia, Hungary, Romania, Bulgaria and Croatia) who jointly participate in the DIGITRANS - Digital Transformation project in the Danube region.

On 19 April 2018, the project partners had the chance to simulate the DIGITRANS methods in specially set interactive environment. The method simulation was in a form of a “parcour” setup. The workshop took place in Esplande hotel in Zagreb.
